Buildings To Be Removed

- Notes:**
1. Future structures will conform to FAA NAVAID Critical Areas, FAA Part 77 Obstruction & ATCT Line of Sight Criteria.
 2. Airport Design Standards based on FAA Class III Aircraft Design Group.
 3. Certain OSU Agricultural and Laboratory Animal Buildings are to be removed from Runway Protection Zones, and their functions are to be relocated to an off-airport site.
 4. Airport Layout Plan based on Current Aerial Photography. Before any Engineering Design or Construction Projects are undertaken the exact location of all Facilities should be field checked.
 5. Property lines shown indicate properties previously pledged under FAA grants and required for airport protection. Property lines may be altered subject to future negotiations between the sponsor and FAA.
 6. All University owned land beyond that required for Airport purposes will require Aviation Easements and assurances of land use compatibility before release from FAA Grant Assurances.

AP No. 3-39-0227-05, date: March 13, 1982

THE PREPARATION OF THIS DOCUMENT WAS FINANCED IN PART THROUGH A FUNDING GRANT FROM THE FEDERAL AVIATION ADMINISTRATION AS PROVIDED UNDER SECTION 505 OF THE AIRPORT AND AIRWAY IMPROVEMENT ACT OF 1946, AS AMENDED. THE CONTENTS DO NOT NECESSARILY REFLECT THE OFFICIAL POSITION OR POLICY OF THE FAA. ACCEPTANCE OF THIS REPORT BY THE FAA DOES NOT IN ANY WAY CONSTITUTE A COMMITMENT ON THE PART OF THE UNITED STATES TO PARTICIPATE IN ANY JOINTLY OWNED DEVELOPMENT, THEREIN OR ELSEWHERE, OR TO INCUR ANY LIABILITY OR OBLIGATION. SUCH DEVELOPMENT IS ENVIRONMENTALLY ACCEPTABLE IN ACCORDANCE WITH APPROPRIATE FEDERAL LAWS.
